The Commission has received the below e-mail request from Ms. Pat Tarmann, captioned with the above-referenced docket number. This appears to be an issue that, at this juncture, should be investigated by ORS to determine the status of the Tarmann's power supply. Please do so, and advise the Commission whether the parties believe that further proceedings are necessary.

Sincerely,

Charles L.A. Terreni  
Chief Clerk and Administrator

**Importance:** High

This is to notify the PSC that we are currently out of power due to the ice storm here in Greenville. In the past Duke Power has threatened to not restore our power in the event of an outage. The Commission has never commented on this threat of retaliation for bringing an action against Duke Power. Please be advised that we expect to have our power restored along with everyone else that is out of power here in Greenville. If it requires an emergency hearing by the Commissioners to accomplish this, please advise me via return e-mail.
